

Capital Institutional Services, Inc. (CAPIS) Grows Fixed Income Business

Dallas, TX – May 20, 2014 – Capital Institutional Services, Inc. ([CAPIS](#)), a leading provider of institutional brokerage and commission management services, announced a year-over-year growth of more than 68% in fixed income trading.

CAPIS pioneered the research credit offering on agency fixed income transactions in 1981. Today, the firm is one of the only brokers in the industry that continues to provide research credit on fixed income trades.

“As investment managers look for additional ways to generate credit to pay for valuable research services, they are discovering that fixed income trades are an easy way to earn that credit,” says Jim Morrow, Chief Operating Officer at CAPIS.

While many brokers are exiting the fixed income business, CAPIS’ full-service agency fixed income desk continues to be a core focus of the business. The fixed income desk offers execution for a wide range of securities, including governments, municipals, supras, agencies, mortgage-backs, CMOs, emerging markets, sovereigns, corporates, asset-backs, and non-dollar securities.

“Our commitment to offering superior execution and client service is validated by the tremendous increase in our fixed income business,” said Morrow.

About Capital Institutional Services, Inc. (CAPIS)

CAPIS is a leading independent U.S. institutional broker specializing in global agency trading, independent research and commission management programs for asset managers, plan sponsors, and broker-dealers. Supported by advanced trading technology, CAPIS’ traders deliver superior execution in domestic and international equities, fixed income, derivatives, and program trading. With over 35 years of experience in the independent research and commission management business, the firm’s industry-leading CCA and CSA programs help reduce transaction costs and improve performance. Founded in 1977, CAPIS is a member of the New York Stock Exchange, the Financial Industry Regulatory Authority, the National Futures Association, and SIPC. For more information, visit www.CAPIS.com.
