

CAPIS Launches Futures Trading Desk

DALLAS, TX - April 24, 2012 - Capital Institutional Services, Inc. (CAPIS), one of the industry's top institutional agency brokerages and research providers, today announced the launch of their futures trading desk.

The futures desk is part of CAPIS' Derivatives Trading operation, a full-service trading desk providing options and exchange-traded futures.

“Launching the futures trading desk was a natural expansion to our global trading operation which includes global equity, fixed income, derivatives, and portfolio trading,” said Jim Morrow, Chief Operating Officer. “CAPIS has long been a leader in providing solutions that meet our clients’ needs and with the strong demand we have seen from institutional investors for futures trading capabilities, now is the perfect time to launch our futures desk.”

CAPIS' Derivatives Trading desk is staffed with industry veterans that have CBOT floor broker experience and CBOE/PCX market making experience. They provide hands-on execution, guidance, and hedge consulting services.

CAPIS is an NFA registered independent Introducing Broker, clearing through their carrying futures commission merchant (FCM), Macquarie Futures USA.

About Capital Institutional Services, Inc. (CAPIS) CAPIS is a leading independent U.S. institutional broker specializing in global agency trading, independent research and commission management programs for asset managers, plan sponsors and broker dealers. Supported by advanced trading technology, CAPIS' traders deliver superior execution in domestic and international equities, fixed income, derivatives and portfolio trading. With over 35 years of experience in the independent research and commission management business, the firm's industry-leading CCA and CSA programs provide added tools for reducing transaction costs and improving performance. Founded in 1977, CAPIS is a member of the New York Stock Exchange, the Financial Industry Regulatory Authority, the National Futures Association, and SIPC. For more information, visit www.capis.com.
