

## **Capital Institutional Services, Inc. (CAPIS) Welcomes Jason Christian as General Counsel, Director of Compliance**

**Dallas, TX – September 11, 2012** – Capital Institutional Services, Inc. ([CAPIS](#)), a leading provider of institutional brokerage and commission management services, today announced that Jason Christian has joined the firm as General Counsel, Director of Compliance.

“We are excited to have Jason as part of our team,” said Jim Morrow, Chief Operating Officer. “CAPIS has been providing compliance support to institutional investors for more than 35 years. With Jason’s legal background, he will be a great asset in helping our clients navigate the regulatory landscape. In this time of increased regulation, CAPIS’ compliance department is an invaluable resource for our clients.”

Prior to joining CAPIS, Mr. Christian worked for U.S. Risk/Arthur J. Gallagher who provided representation to Lloyd’s of London syndicates on a variety of Insurance related issues. He has represented both investors and financial institutions in securities arbitrations and civil suits arising from state and federal securities law. Mr. Christian attended Widener University in Wilmington Delaware where he received his J.D. degree.

### **About Capital Institutional Services, Inc. (CAPIS)**

CAPIS is a leading independent U.S. institutional broker specializing in global agency trading, independent research and commission management programs for asset managers, plan sponsors and broker-dealers. Supported by advanced trading technology, CAPIS’ traders deliver superior execution in domestic and international equities, fixed income, derivatives and program trading. With over 35 years of experience in the independent research and commission management business, the firm’s industry leading CCA and CSA programs provide added tools for reducing transaction costs and improving performance. Founded in 1977, CAPIS is a member of the New York Stock Exchange, the Financial Industry Regulatory Authority, the National Futures Association, and SIPC.
